2016 ANNUAL CONFERENCE GENERAL INFORMATION

WELCOME TO THE 2016 ASPE CONFERENCE

It is my pleasure to welcome you to Tampa and the 2016 ASPE Annual Conference! This is our 15th annual conference and we are delighted to be celebrating this milestone with all of you.

Our conference is the collective vision of many contributors. It is full of content that introduces innovations, supports professional development, invites collaboration and inspires our continued growth as individuals and as an organization. Our featured conference speakers include the Howard S. Barrows invited plenary speaker, Karen Szauter, MD, FACP. Her Sunday presentation, *Navigating the Sea of Simulated Patient Research*, will help point us in the direction of places to explore with SP Methodology. On

Monday, Elaine Meyer, PhD, RN, will bring our focus to the value of authenticity and realism in simulated healthcare conversations. Finally, on Tuesday, Eduardo Salas, PhD, will share his observations on enhancing teamwork through simulation-based training.

In addition to sessions essential to our work—program development, assessment/evaluation, training, feedback, communication—we have presentations on extending SPs into new disciplines, hybrid and mixed modalities, incorporating technology, and certification of the healthcare simulation educator. There will also be many opportunities to sit down, connect, and network with your peers.

Our annual business meeting will take place during lunch on Monday. The Board of Directors will be sharing lots of developments, including the new ASPE logo, our plans for the ASPE Asia Pacific conference in Singapore this November, and our unfolding work with Tellyes in China. You'll meet new members of the Board and help us recognize and honor those who have provided special service to the association.

To enhance your knowledge and participation, I encourage you to consider volunteering with an ASPE committee. ASPE has four Special Interest Groups (Hybrid, GTA/MUTA, Interprofessional Education (IPE), and exSPanding our graSP in non-healthcare professions) and nine committees that are seeking new members. Your participation helps make ASPE an even stronger organization with more to offer its members. Please seek out the committee and SIG members and find out what they are doing and consider getting involved!

Finally, please join me in giving thanks to everyone who helped put this conference together. With the help of Dawn Schocken, we were able to have our SP Day curriculum presented at the CAMLS facility. Special thanks to Cathy Smith and all of the members of the Conference Committee. They work very hard year round to give our membership this conference. With over 100 presentations, you are sure to be inspired. Connect with old and new friends and colleagues and visit the exhibit area to experiment and explore all the great products and resources for our field. This year's conference offers something for all learning styles, and career levels.

We're delighted you are here! Thank you for your attendance, participation, and commitment to transforming professionals through the power of human simulation.

Enjoy the conference!

Grace Gephardt, MEd
President

THINGS TO DO IN TAMPA!

The Hilton Tampa Downtown is located in the heart of Tampa's Downtown Neighborhood. This prime location provides ample shopping, restaurants and activities within steps of the hotel.

DISCOVER AN URBAN OASIS IN DOWNTOWN

- Gilded Age opulence is on display at the **Henry B. Plant Museum** on the campus of the University of Tampa. The 19th Century railroad baron built the massive silver-domed structure the Tampa Bay Hotel resort.
- Visit the **Tampa Museum of Art**, home to a permanent collection that includes Greek antiquities, Pop Art pieces and more modern art. The museum's Sono Cafe also makes a great stop for lunch.
- The **Tampa Riverwalk** links many of downtown's most popular venues. Walk or bike past markers telling the story of the city through its prominent citizens.
- The **Tampa Bay History Center** guides you through centuries of exploration and settlement that have made Tampa Bay one of the most culturally diverse parts of Florida.
- Hop aboard a Segway for a **Magic Carpet Glide** tour of the city. You'll get a new perspective on downtown!
- Finish your day with a show at the **Straz Center for the Performing Arts**, the largest theater complex in the Southeast.

SINK YOUR TEETH INTO SAVINGS AND SANDWICHES

- Dive into The **Florida Aquarium** to learn how wetlands connect life both above and below the water.
- **Tampa Premium Outlets** offers nearly 100 of the best brand names in retail at steep discounts every day.
- The **American Victory Ship** supplied U.S. troops fighting in World War II, the Korean War and the Vietnam War.
- Florida's oldest restaurant, the Columbia, sits in the heart of **Ybor City**. Make a reservation for dinner and the regular Flamenco show. The menu includes Tampa Bay classics, such as the Cuban sandwich, grilled grouper and devil crab.
- The iconic **TECO Historic Streetcar System** runs between downtown and Ybor City. Let it carry you to Tampa Bay's National Historic Landmark District, for vintage shopping, hand-rolled cigars and Cuban cafe con leche.

ROAR, SOAR, AND MORE!

- Test your courage at **Busch Gardens® Tampa** where you'll swoop like a falcon, race like a cheetah, and roar like a lion. Water rides will keep you cool at **Adventure Island**.
- **MOSI – the Museum of Science and Industry** – lets you feel the force of a Florida hurricane, program a robot, walk on the moon, and explore what makes us human.

SUNDAY, JUNE 26, 2016

3:30 PM - 4:30 PM

Navigating the Sea of Simulated Patient Research

Karen Szauter, MD, FACP, Assistant Dean, Professor, Medical Director, University of Texas Medical Branch

Dr. Szauter received her undergraduate education at Case Western Reserve University in Cleveland, Ohio. After attending medical school at Case Western University School of Medicine, she completed an internship and residency in Internal Medicine at Baltimore City Hospital. She returned to Cleveland to complete two fellowship programs, initially in gastroenterology and then in nutrition. She joined the University of Texas Medical Branch faculty in 1990 and has developed her career as a clinician-educator. Her clinical work is in gastroenterology, and she serves as Co-director for the medical students' Internal Medicine year 3 clinical clerkship. She also serves as the Medical Director for the Office of Clinical Simulation, supporting the application of human patient simulation in teaching and assessment. She is an elected member of the UTMB Academy of Master Teachers, and the state-wide Kenneth I. Shine, MD, Academy of Health Science Educators. Her research interests are focused on clinical skills development, doctor-patient communication, and on professional development. She has maintained an active role in several regional and national organizations including the AAMC Group on Educational Affairs, the Association of Standardized Patient Educators, the Clerkship Directors in Internal Medicine, and the TX Chapter of the American College of Physicians.

On Being Present, Not Perfect: Insights and Implications for Simulated Educators

Elaine Meyer, PhD, RN, Director of the Institute for Professionalism and Ethical Practice, Associate Professor, Boston Children's Hospital, Harvard Medical School

Elaine C. Meyer, PhD, RN, is the Director of the Institute for Professionalism and Ethical Practice at the Boston Children's Hospital and Associate Professor of Psychology at Harvard Medical School. Her professional interests include patient and family perspectives and priorities, pediatric critical care, models of psychosocial care delivery, communication and relational skills, simulation education, and humanism in healthcare. Dr. Meyer is interested in supporting projects that embed challenging healthcare conversations in simulation learning, relationship-centered care, and providing mentorship around interprofessional communication learning. She has published nearly 100 peer-reviewed publications, presents nationally and internationally, and given a TED Talk entitled *On Being Present, Not Perfect*. Dr. Meyer may be reached at Elaine.meyer@childrens.harvard.edu.

The Science of Simulated Based Training (SBT): Seven Observations

Eduardo Salas, PhD, Professor, Rice University

Eduardo Salas is a Professor and Allyn R. & Gladys M. Cline Chair in Psychology at Rice University. Previously, he was a Trustee Chair and Pegasus Professor of Psychology at the University of Central Florida where he also held an appointment as Program Director for the Human Systems Integration Research Department at the Institute for Simulation and Training. Before joining IST, he was a senior research psychologist and Head of the Training Technology Development Branch of NAWC-TSD for 15 years. During this period, Dr. Salas served as a principal investigator for numerous R&D programs that focused on teamwork, team training, simulation-based training, decision-making under stress, safety culture and performance assessment.

Dr. Salas has co-authored over 450 journal articles and book chapters and has co-edited 27 books. His expertise includes assisting organizations in how to foster teamwork, design and implement team training strategies, facilitate training effectiveness, manage decision making under stress, develop performance measurement tools and create a safety culture. Dr. Salas is a Past President of the Society for Industrial/Organizational Psychology and the Human Factors and Ergonomics Society, a Fellow of the American Psychological Association and recipient of the Meritorious Civil Service Award from the Department of the Navy. He is also the recipient of the 2012 Society for Human Resource Management Losey Lifetime Achievement Award, and the 2012 Joseph E. McGrath Award for Lifetime Achievement.

2016 ANNUAL CONFERENCE

WELCOME TO THE CONFERENCE

Dear ASPE attendees:

As the Conference Chair of the ASPE 2016 International Conference in Tampa, June 25 -29, 2016, I want to extend a warm welcome to you all. We are honoured that you have chosen to prioritize your resources in order to attend this face-to-face meeting. We have provided many opportunities for you to be inspired by and to grow from networking with colleagues, new and old.

The complex process of planning the conference is year-round, starting almost immediately after the current conference is finished. This year's conference has been informed by the collaborative and dedicated work of 23 volunteer ASPE members representing 5 countries. There are two subcommittees, the *Abstract Selection Committee* (headed by Valerie Fulmer and Gina Shannon) and the *SP Day Committee* (headed by Dawn Schocken). I also want to acknowledge our meeting planner extraordinaire, Heather Freitsch, as well as many other staff at KWMG, our management company.

Inspired by our Tampa location, and reflecting the growth and maturity of both our organization and SP educator practice, the theme of this year's conference is *Navigating Through Your Career*. The record number of submissions reflects the richness of SP practice around the world. Concurrent sessions are presented in diverse formats, including workshops, presentation/ discussions, training techniques, a poster crawl, oral research reports and short oral "snapshot" sessions. There should be something for everyone with varied themes that include: Administration; Advancing Your SPs; Curriculum/Case Development; GTA/MUTA; Hybrid; Interprofessional Education; SP Educator Development; SP Methodology: Applications Beyond Medicine; and Technology.

We are also excited by our three plenary speakers, all leaders in simulation. Dr. Karen Szauter, this year's Howard Barrows Invited Speaker Award presenter, opens the conference on Sunday afternoon with her keynote, *"Navigating the Sea of Simulated Patient Research."* Further highlights include Monday morning's plenary *"On Being Present, Not Perfect: Insights and Implications for Simulation Educators"* by Dr. Elaine Meyer, Tuesday's plenary on *"The Science of Simulation Based Training: Seven Observations"* by Eduardo Salas, and Wednesday morning's ASPE research and member-at-large presentations.

We also welcome and listen to your feedback. Wireless will be provided throughout the conference venue. A conference app will help guide you. There will be lots of room for the vendors to spread out so you can easily visit them. Once again, we have scheduled a "poster crawl." One of the keynotes will be a bit later in the morning for those of you who are not so keen on early morning starts. We have scheduled panel discussions to allow people to network and talk about various aspects of SP practice. Look for those early morning walk/runs again, evening gatherings at the roof top pool and an organised dine-around for those who may be travelling on their own and who would like to network after the conference in a more social setting. We have a selfie contest and an ASPE drop-in booth in the vendor hall where you can provide written feedback and meet the Board. Electronic surveys will be sent out at the end of each day. This is your conference and your feedback is vital to making it better each year we run it.

When not attending sessions, Tampa is an incredibly beautiful city with lots of fun things to do for you and your guests. We've provided a link on our website to help you get started.

I look forward to meeting you and to learning from and with you all! Please come up and introduce yourself to me or seek me out if I can help in any way. I also want to express my gratitude to ASPE and all of the members of this committee for the invaluable opportunity to serve and grow in this position over the last three years as I pass the torch onto the next Conference Chair!

Warmly,
Cathy Smith, PhD

2016 ANNUAL CONFERENCE COMMITTEE INFORMATION

CONFERENCE COMMITTEE _____

Chair: Cathy Smith, PhD

CONFERENCE COMMITTEE MISSION STATEMENT: It is the sole purpose of the Conference Committee to plan, develop, and produce the ASPE Annual Conference in conjunction with all of the individuals and committees who play a role in the conference planning process. The Conference will reflect ASPE's overall mission to offer professional development to members, to advance research and scholarship in the field, and to provide a forum to set standards of practice.

EDUCATIONAL CONTENT COMMITTEE _____

Chair: Amelia Wallace, BM

EDUCATIONAL CONTENT COMMITTEE MISSION STATEMENT: The Educational Content Committee provides ongoing educational and professional opportunities for the membership to encourage membership participation in these initiatives.

EDUCATIONAL RESOURCES COMMITTEE _____

Chair: Stephen Charles, MS, MA, PhD

EDUCATIONAL RESOURCES COMMITTEE MISSION STATEMENT: To plan, implement and evaluate educational resources and web based educational programs for SP Educators and distribute them using the virtual library, webinars, web based learning modules and the ASPE bookstore.

GRANTS AND RESEARCH COMMITTEE _____

Chair: Tonya Thompson, MD

GRANTS AND RESEARCH COMMITTEE MISSION STATEMENT: The goal of the ASPE Grants and Research (G&R) Committee is to advance scholarship in the field of Standardized Patient (SP)-based education. Through various ASPE sponsored activities, the Grants and Research Committee supports members in acquiring knowledge and experience in order to contribute to the field through research, dissemination of research, and education.

The Scholars Certificate Program provides members opportunities to develop foundational knowledge of SP-focused scholarship through the completion of a six workshop series providing mentorship in goal setting, research methodology and dissemination of scholarly work. Members completing this program gain proficiency in practical skills including: conducting a literature search, writing and reviewing abstracts, creating and pursuing clear scholarship goals, gaining qualitative and quantitative research method knowledge and delivering effective oral and poster presentations. Once a member completes six G&R sponsored workshops or demonstrates competency in research modules with a combination

2016 ANNUAL CONFERENCE COMMITTEE INFORMATION

of G&R workshops and other approved educational experiences/courses, he/she will receive a certificate of completion.

The ASPE Research Grant Award aims to provide an incentive to current ASPE members for unique research or development projects related to SP-based inquiry. G&R was one of the first committees created at the inception of ASPE in 2001 and has many dedicated and recognized scholars among its membership.

INTERNATIONAL COMMITTEE _____

Chair: Henrike Hoelzer, PhD

INTERNATIONAL COMMITTEE MISSION STATEMENT: The mission of the International Committee is to support networking and collaboration among SP programs worldwide. It seeks to foster regional or national SP-contact persons who can play a stimulating role in their geographical region. The committee works preferably by a bottom-up approach.

MEMBERSHIP COMMITTEE MEMBERS _____

Chair: Jennifer Owens, BA

MEMBERSHIP COMMITTEE MISSION STATEMENT: The mission and goal of the Membership Committee is to engage and support members through recruitment and retention, to initiate and facilitate communication between ASPE and members and to develop membership benefits.

PUBLICATIONS COMMITTEE _____

Chair: James Bills, EdD, MS

PUBLICATIONS COMMITTEE MISSION STATEMENT: The Publications Committee is dedicated to reporting current research, trends, techniques and information regarding SP methodology in the membership newsletter, ASPE News. The committee generates and collects the content for the newsletter from many sources, including other ASPE committees and external publications. We invite contributions and content suggestions from the membership. Committee members only need to have the strong problem solving, communication, and organizational skills that every SP Educator has, and we encourage any members with enthusiasm and ideas for ASPE News to apply.

2016 ANNUAL CONFERENCE COMMITTEE INFORMATION

STANDARDS OF PRACTICE COMMITTEE _____

Chair: Lorraine Lyman

STANDARDS OF PRACTICE COMMITTEE MISSION STATEMENT: Standards of practice for the SP Educator profession is an important area which is in the process of development. An international task force has begun the task of developing the standards of practice for the organization using a variety of methodologies and resources. As a self-regulating organization, members of this profession are not required to be certified or accredited, yet wish to be able to articulate what it is that makes this professional body unique.

The Standards of Practice task force has initiated the process to define general principles, knowledge, skills, values and issues that encompass the overall and daily responsibilities of this profession which will serve a range of purposes. Once these practices are drafted and vetted, the committee will begin the process of membership review with activities such as written responses to questions posed on the ASPE website, discussion groups, presentations and written correspondence.

WEBSITE AND SOCIAL MEDIA COMMITTEE _____

Chair: Vacant

WEBSITE AND SOCIAL MEDIA COMMITTEE MISSION STATEMENT: The purpose of the ASPE Website and Social Media Committee is to communicate the goals and initiatives of the association, connect members with each other and with resources, and advance the professional development of educators who use human simulation methods through website and social media interfaces. Our committee works closely with web developers, graphic designers, and social media administrators to execute our mission.

2016 ANNUAL CONFERENCE OUTSTANDING EDUCATOR AWARD

In recognition of the outstanding talent within ASPE, we annually honor an individual ASPE member through the "Outstanding SP Educator Award." The former recipients of this award are listed below. Nominations are sought each year a few months before the Annual Conference. We encourage both self-nominations and the nomination of worthy colleagues. The award is decided upon by a committee of former recipients that is selected by the President of ASPE.

To be eligible for the award, the nominee must: be an active member of ASPE; have been involved in SP education/training for more than seven years; have made significant contribution to the SP community by providing professional development and/or guidance to newcomers in the field; be recognized as a leader by working with varied levels of faculty within their own institution, the SP community, and in national or international organizations (e.g., ASPE, AAMC, CAME, NBME, ECFMG, etc.).

MedAffinity provides innovative, intuitive, and powerful electronic health records software for both clinical environments and educational institutions. Educational simulation environments have a different set of needs than live hospitals, which is why we have designed MedAffinity EHR for Education to solve problems specific to the simulation environment—without compromising the student experience of using a real-world EHR. We think faculty and administrators, not your educational EHR, should decide what and how your students learn. We think an educational EHR should allow students to focus on learning to care for people, not software.
